SUMMARY

I aim to obtain a role that allows me to utilize my creative abilities to contribute meaningfully to the organization’s success. I aim to provide innovative solutions that support organizational objectives while pursuing continuous professional development.

WORK EXPERIENCE

DepEd – Division of Ozamiz City **IBJT Compound, Carangan, Ozamiz City** **February 2024 – May 2024**
UI/UX Designer Intern

- Collaborated with a team to create prototypes for user-friendly interfaces and experiences.
- Conducted user research, including interviews and usability testing.
- Worked with supervisors to ensure designs met project specifications and schedules.
- Contributed to front-end development tasks to help implement design aspects.

IT Support Intern

- Installing, updating, and troubleshooting software applications.
- Maintaining and securing an administrative website from unauthorized access.
- Keeping track of IT assets such as laptops, projectors, and multimedia tools, ensuring they are well maintained.
- Assisting in managing and updating teacher or student information.
- Effectively answering teachers' questions online by providing clear, concise solutions, and support.

TECHNICAL SKILLS

- **Wireframing & Prototyping:** Expertise in creating wireframes and interactive prototypes.
- **Visual Design:** Strong knowledge of layout, typography, and color theory.
- **Interaction Design:** Designing intuitive, smooth workflows and transitions.
- **Tools:** Figma, Photoshop, Git, and Github.
- **Languages:** HTML, CSS, Javascript, Bootstrap, Tailwind, PHP, and MySQL.

PROJECTS

Common Canine Disease and Home Remedies Expert System with Information Monitoring

- This application incorporates vast information on common canine diseases, delving into their signs and symptoms.

Computer Laboratory Management System

- This system offers a comprehensive solution designed to manage computer equipment.
